

MAR JAMES CAYUBE

INFORMATION TECHNOLOGY

Technological Institute of the Philippines (TIP) QC

Address: 49 Sitio Sto nino De Pasig Antipolo city Rizal

Email Address: jamescayube7@gmail.com

Cellular No.: +639079234175

CAREER OBJECTIVE

Motivated and detail-oriented IT Graduate specializing in Mobile Application Development. Equipped with solid, hands-on experience in building cross-platform applications using Flutter and React Native from a 500-hour intensive industry internship. Proven ability in translating complex UI/UX designs into functional code, managing RESTful API integrations, and implementing modern state management. Passionate about engineering scalable, user-friendly solutions in a fast-paced development team.

TECHNICAL SKILLS

- **Mobile Frameworks:** Flutter (Dart), React Native
- **Web Development:** ReactJS, JavaScript (ES6+), HTML5, CSS3, Vite
- **Programming Languages:** C++, C#, Python, Java, SQL
- **Design & Prototyping:** Figma, Canva
- **Developer Tools & Networks:** Git/Version Control, Postman (API Testing), Cisco Packet Tracer
- **Familiarities:** Information Assurance, Ethical Hacking Concepts (SQL Injection, Bruteforce mitigation)

DESIGN PROJECTS COMPLETED/ RESEARCHES

FurniView | Cross-Platform Mobile AR Application

- Independently developed a full-feature mobile e-commerce application using React Native and JavaScript.
- Integrated Augmented Reality (AR) technology allows users to preview and scale 3D furniture models in real-world environments before purchasing.
- Implemented a complete e-commerce pipeline, including product catalog browsing, detailed item viewing, and secure in-app transaction processing.
- Optimized UI performance and responsiveness across multiple device screen sizes to ensure a seamless and high-fidelity user experience.

EcoTrack | Integrated Web & Mobile Ticketing and Inventory Management System

- Co-developed and successfully deployed an integrated web and mobile real-time ticketing system for PhilEco, featuring cross-platform functionality and AI chatbot support.
- Engineered intelligent routing and prioritization features using Extended Finite State Machines (EFSM) to optimize workflow automation and track inventory in real time.
- Integrated an AI-powered chatbot to analyze system requests, enhance user experience, and provide actionable operational insights.
- Collaborated on bridging frontend modules with backend APIs, ensuring seamless cross-platform performance across web and mobile interfaces.

ON-THE-JOB TRAINING/ PRACTICUM/ INTERNSHIP EXPERIENCES

Mobile Developer (Intern) | 8box Solutions Inc.

15F Centerpoint Bldg, Garnet Road | January 14, 2026 - April 16, 2026

- Completed a 500-hour intensive internship focused on high-level technical implementation, mobile application logic, and clean architecture.
- Contributed to the deployment of 6 mobile projects by successfully translating Figma design mockups into responsive and pixel-perfect Flutter applications.
- Managed and tested RESTful API integrations using Postman to ensure stable and seamless backend-to-frontend communication.
- Developed core app functionalities using Dart, utilizing advanced state management principles to maintain maintainable and clean codebases.
- Collaborated directly with UI/UX engineers and senior developers within a professional Git-based workflow and fast-paced agile sprints.

Event Marshall (Part-time) | Switch Asia

Pasay, Metro Manila | September 05, 2025 - September 08, 2025

- Managed high-traffic booth areas, ensuring crowd control, safety, and a conducive environment during peak event hours.
- Demonstrated strict adaptability and communication skills by handling various cross-functional roles on the ground as needed.

KNOWLEDGE, SKILLS AND ATTITUDE

- Excellent communication, teamwork, and cross-functional collaboration abilities.
- Demonstrated leadership experience, capable of guiding development teams and maintaining productive group dynamics.
- Skilled in fostering positive professional relationships and a healthy, collaborative team environment.

LEADERSHIP ACTIVITIES

Project Lead | FurniView (AR App)

- Led the development of FurniView, a mobile app that uses Augmented Reality (AR) to show furniture in a real room.
- Made sure the technical parts of the app worked correctly and the team finished the project on time.

Team Leader | Community Project (NSTP)

- Managed a team for a community service project where we painted walls and improved a local area
- . ■ Assigned tasks to team members and made sure we had all the materials needed to finish the job.

Team Captain | Basketball

- Acted as the leader for the team, keeping everyone focused and working together during games and practice
- . ■ Helped teammates stay motivated and handled any issues within the group to keep the team spirit high

SEMINARS AND TRAININGS ATTENDED

- AI-powered Facebook Ads Strategies: Leveraging AI for Efficient Campaign Creation and Optimization
Online - Google meet
February 27, 2024
- Python programming application
Unit 703 Parc house bldg, Guadalupe
February 04, 2024
